### **EXCITING OPPORTUNITIES**

#### **BOW House**

The BOW-House team is developing an e-commerce website, unique to the BOW community, with the purpose of promoting reuse and environmental awareness throughout the community. Through the website, students from any BOW campus will be able to put items for sale and buy from other students. We encourage the transaction of dorm products, as thousands of them are disposed to landfills every semester. Our flat fees are incredibly cheap, the reliability of the products is ensured, and the delivery is measured in hours. As we look to improve and develop our website, we would like to ask of you to fill the survey out. With your help we would like to make this community an environmentally sustainable one, joining the BOW community in a unique transactional way. <https://forms.gle/gdVjXiDTjJJYAe9S9>

***BOW Venture Capital Group***

[Green Line Ventures](#) is a student-run venture capital fund backed by 500 Startups, the most active venture capital firm in the world. We believe that Babson, Olin, and Wellesley College (BOW) student/recent alumni entrepreneurs have a unique edge in seeing what the future will look like, but are often underrepresented when it comes to access to capital. Our collective mission at Green Line Ventures is to solve that problem. Just like the Boston Green Line, our goal is to help BOW entrepreneurs move from A to B, by connecting them with the right people, resources, and knowledge to scale their venture. We are actively seeking BOW startups for our first investment (\$10K-\$25K via a SAFE). If you are a current student or recent alumni (less than three years out) and are looking for funding, please reach out to us at <https://ssetty1.typeform.com/to/qxrqWF>.
